The 2009 stimulus bill is now in effect! Included in the bill are tax credits for homeowners purchasing and installing energy efficient heating equipment. All Peerless gas and oil boilers with efficiency of 90% or greater qualify for the tax credit.

Peerless Boiler Models Eligible for the Federal Tax Credit include:

Gas-fired Boilers:

- [PureFire® Boilers](#) – all residential models
- [Pinnacle® Gas Boilers](#) – all residential models

Oil-fired boilers:

- [Pinnacle Oil Boilers](#) – all residential models

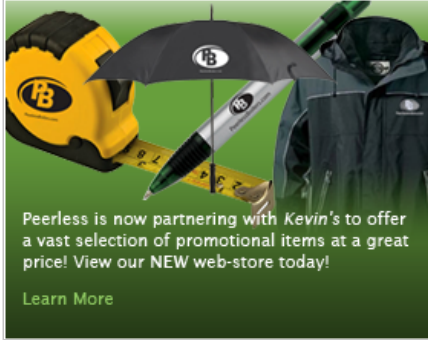

For complete information on federal tax credits for high efficiency heating equipment, criteria and guidelines, visit www.energystar.gov or [click here](#) for a direct link to the federal tax credit information page.

According to the ENERGY STAR® Federal Tax Credit web page, homeowners are encouraged to print and retain a copy of the Manufacturer's Certification for boiler purchases for their records. Below is a printable Manufacturer's Certification from Peerless Boilers, certifying the efficiency of the boiler models eligible for the Federal Tax Credit (listed above) . The certificate does not need to be submitted with tax return.
